Subject: General Information and Announcements for Today - 4/27/06

MARx UI

The MARx User Interface will not be available today from 9AM to 3PM EST.

Plan Enrollment File Processing

CMS has not processed any Plan enrollment transactions since Monday 4/24 but expects to resume the normal schedule either tonight or tomorrow. Plans should begin to receive their BCSS the following day. Please remember that the BCSS now follows a new naming convention:

...uuuu.BGD5050.Dyymmdd.Annnnn.Bnnnnn.BATCHSTD

Please see the System Update announcement sent to Plans on April 7 for more details.

Plans that submitted enrollment reconciliation files (RECON in position 14 of the header record) will NOT receive a BCSS for those files. CMS will be producing a Special TRR tonight that will provide the details of the processing of those files to the Plans.

NoRx File

The NoRX file that was scheduled to be sent last night to all Plans with missing 4RX data for their beneficiaries has been delayed until today. The naming convention for that file is:

...#NORX.XXXXX.OUT.NTFCTN

Please see the Transmission of NoRX Files memo sent to Plans on April 25 for more details. This memo referenced the NoRX layout as an attachment which was inadvertently left off of that communication; however the layout has not changed and can be found on the MMAHelp website at the following link:

http://www.cms.hhs.gov/MMAHelp/downloads/4Rxgap_CMSMemo_filelayout_030906.pdf

****NOTE – Mainframe Connect:Direct users, please be sure to remove or rename last month's file so that the current file can be delivered.**

Special TRRs

There will be three special TRRs sent to Plans today for the following:

- 1) TRC165 Cleanup
- 2) Enrollment Reconciliation
- 3) Full Enrollment

Further information regarding the content and naming convention on all of these will be forthcoming.

Please direct any questions to the MMAHelp Desk at 1-800-927-8069 or mmahelp@cms.hhs.gov.

Thank You,
